

The Organic Trader

Connecting Buyers & Sellers

JANUARY/FEBRUARY 2023

NOTICE: After many, many years of providing a place for organic buyers and sellers to connect, the final edition of the Organic Trader will be in the April/May 2023 CROPP Forum (submission deadline: Apr. 25, 2023). This decision was not made lightly. Following staff reductions and realignment, communications teams have been required to make changes to optimize their time and realign priorities for improved focus. We tried some new ideas in an effort to streamline and simplify that didn't have the improvements we'd hoped to see, so it's been determined that it's time to retire the Trader. Thank you for your participation through the years.

The deadline for classified ad placement is the 25th of each month.

February 25 for March issue

April 25 for April/May issue (Final Organic Trader, see Notice at left)
